# Julius Karnwie

Frontend Developer with full-stack project experience | React | Next.js | TypeScript | Tailwind CSS
jkarnwie2000@yahoo.com | 540-314-5008 | Roanoke, VA | GitHub | LinkedIn | Portfolio

## Summary

Frontend Developer with full-stack project experience building responsive web apps in React, TypeScript, Next.js, and Tailwind CSS. Frontend Simplified graduate with deployed projects using Node.js, Express, Prisma, PostgreSQL, and Stripe, backed by GitHub Actions CI and Vitest/React Testing Library tests. Nearly two years in a credit union contact center sharpened my communication, attention to detail, and user focus.

## Technical Skills

**Languages & Web:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Semantic HTML

**Frameworks & Libraries:** React, Next.js, Tailwind CSS, React Router, Redux Toolkit, Stripe, Node.js, Express, Prisma, PostgreSQL, Responsive & Mobile-First Design

**APIs & Data:** REST APIs (fetch / axios), Firebase

**Testing & Tooling:** Vitest, React Testing Library, GitHub Actions (linting), Git, GitHub, npm, Vercel

## Experience

**Karnwie's Golden Websites (Roanoke, VA)** Jan 2026 - Present
*Founder & Frontend Developer*

- Build and deploy full-stack responsive, mobile-first websites for small businesses and nonprofits using HTML5, CSS3, Stripe, Tailwind CSS, Node.js, Firebase, Express, Prisma, PostgreSQL, Responsive & Mobile-First Design and JavaScript, shipped on Vercel.
- Translated client goals into clean interfaces with semantic HTML, refining layout, spacing, and typography.

**Skinstric AI (Remote)** Oct 2025 - Apr 2026
*Frontend Developer, Virtual Internship*

- Built the frontend for an AI skincare platform in Next.js, TypeScript, and Tailwind CSS from a Figma design specification.
- Integrated REST API endpoints for image upload and analysis results with loading and error states; fixed browser bugs.
- Added a GitHub Actions workflow that runs ESLint on every push and pull request.

**Member One Federal Credit Union (Roanoke, VA)** Feb 2024 - Jan 2026
*Member Contact Center Representative*

- Resolved high-volume member inquiries with accuracy and empathy in a regulated banking environment.

## Projects

**Summarist Book Summary Platform** | Live Demo | GitHub

- Next.js, Stripe. TypeScript, Firebase, Tailwind CSS, Redux Toolkit: A Next.js and TypeScript bookstore and book-summary app with Stripe checkout, email receipts, Firebase sign-in, and an admin dashboard for tracking sales and inventory.

**Wakis Mart Deli & Grocery** | Live Demo | GitHub

- React, Node.js, Express, Prisma, and PostgreSQL: A full-stack deli and grocery store with 200+ products, a made-to-order deli menu, Stripe checkout, email order confirmations and an admin dashboard.

**Books E-commerce Store** | Live Demo | GitHub

- React, React Router, Javascript: cart with subtotal, tax, and total, sort by price and rating, Stripe Checkout, and 15 component render tests in Vitest and React Testing Library.
